San Francisco, CA 94105

NATIONAL MANAGEMENT OBJECTIVES – NORTHERN CALIFORNIA FIRES

October 25, 2017, 1530 hrs, Pacific Time

- Ensure health and safety of all response personnel and communities
- Integrate EPA response assets with federal, state and local response structures
- Minimize social, governmental and economic adverse impacts
- Maintain an incident management structure and processes, consistent with the National Incident Management System and Incident Command System doctrine and principals, to enable effective overall management of the incident
- Execute the Agency's Crisis Communications Plan
- Provide assessment and clean up of public and private properties, to render properties safe from hazardous materials and household hazardous waste, so that the non-hazardous removal of solid waste, ash and debris can occur.
- Provide assessment & technical assistance to Drinking Water & Wastewater facilities as requested by the State, Tribal or local governments.
- Provide assessment of industrial facilities for CERCLA Superfund sites and facilities covered by the Clean Air Act 112(r) Prevention of Accidental Releases program
- Encourage a cooperative federalism approach to the incident response, where national, state and local governments work together, to solve common problems
